Director of Basic and Geographic Intelligence

Chief, Cartography Division, OBGI

Indochina Map Atlas

1. In response to your memorandum of 1 May 1970, same Subject, the Cartography Division is planning the following:

a. Prepare 50 folders of the old Indochina Map Folio, including reprinting of maps 51922, 51930, 51923, 51926, the outside cover, and Table of Contents. Binding will be side stitching covered with tape.

b. In the meantime the Cartographic Research Branch will start revising, where necessary, the existing maps and the Division will publish a new edition, titled "Indochina Map Atlas" by the end of September 1970. The format and size will be the same as the old folio except the binding will be side stitched.

c. The Map Library and I have estimated that 1,000 copies of the revised atlas should be bound for distribution, and an additional 1,000 loose copies of all newly revised maps put in the Records Center.
